

Math Journal – Prompts:

Directions: Read through the journaling prompts and respond to each prompt thoughtfully in writing. Be honest and open in your reflections, focusing on self-awareness and self-improvement.

These prompts should encourage you to reflect on their teaching practices, experiences, and goals.

- Reflect on a recent classroom experience where you felt successful in fostering a supportive learning environment. What strategies did you use, and why were they effective?
- Identify a challenge or obstacle you have encountered in creating a supportive classroom environment. What steps can you take to address this challenge and overcome it?
- Think about a student who has demonstrated increased confidence in math recently. What factors do you think contributed to their growth, and how can you replicate this success with other students?
